## WRITING YOUR LIFE

### Wed, Sept 7th at 1pm

We all have stories to tell about the life we've lived, the experiences we've had, the people we've met, and the places we've been. The "Writing Your Life" class will help you develop the tools needed to write those stories. Whether writing for grandchildren, posterity, or yourself, we will use exercises to spark memories, and writing rules to make the story clearer and which make the whole process easier and more enjoyable.

Join the Wednesday class starting September 7 at 1:00. You'll need a notebook, a pen or pencil, memories, and a desire to write. Let's get together and enjoy writing good stories!

## Unleash Your Wellness

1X per month on  
a different day of  
the week each  
month. You'd  
donate +/-3  
hours of your  
time and it  
counts towards  
our annual lunch-  
eon! (see pg 4).  
Please let the  
Director know if  
you would be  
willing to help.

## Knitting/Crocheting Group on Mondays

Where have you been? We have a few people interested in joining in on this group, but we haven't seen the regular participants in a long while. If you used to participate, please contact the director at 873-1504 and let us know how we can rejuvenate this program. Thanks!

## Coffee with the Mayor

Tues. Sept 27th at 9:30am

### AT THE NEW MC POLICE DEPARTMENT HEADQUARTERS

Be sure to join us this month as the Mayor and several City Department Heads give a brief on the happenings in and around Michigan City. And this month ONLY, this event will be held at the brand new MC Police Department headquarters. If you haven't seen this state-of-the-art building, now is your chance!

### A Hand Up, Inc.

Is sponsoring a Shopping Cart Parade on Sat, Sept 17th from 9am-2pm starting at St Paul Church & School parking lot. Our very own Barb Fisher has volunteered to push a shopping cart in the parade representing the Senior Center. All donations made in her name will be given to A Hand Up, Inc. (a non-profit organization providing transitional housing for homeless women veterans & other homeless women.) We will be taking donations here at the Sr Ctr & will donate \$50 along with whatever we collect from members donations to A Hand Up. **We hope you'll find it in your heart to give to those in great need. Make checks payable to MCSC.**

## Trivia Challenge Thursday, Oct 27th, 2015 5-8pm \$10/per person

Start planning now! Gather up your friends (maximum of 10) and form a team. Each team is given a questionnaire of 5 questions in each round (10 rounds total). As a team, you decide on an answer, write it on your questionnaire and turn it in for scoring. The team with the highest score will win \$10 per person on that team. 2nd place wins \$5 per person, 3rd place wins \$2 per person. Theme to be determined. Food & beverages will be available for purchase. Food served 5-6pm. Questions begin at 6pm. All proceeds benefit Sr Ctr.

**This event is open to the public & you do NOT need to be a member to participate.**

**DON'T HAVE A TEAM? That's okay, call us and we'll place you on a list and put a team together for you!**

**FREE!**

## Popcorn & A Movie Mon, Sept 19th at 1:00pm "Mother's Day"

## Director's Corner

Labor Day. Wikipedia describes it as: "a public holiday celebrated in the U.S. on the first Monday in September. It honors the American labor movement and the contributions that workers have made to the strength, prosperity, and well-being of the country." We Americans are a different breed aren't we. We carry with us the Puritan work ethic which emphasizes hard work, discipline and frugality. But believe it or not, we're slipping. Yep. In 1950 we averaged 36.92 hours per week. Today we're down to 32.76 hours. And if I asked ten people, I'll bet at least 9 of them would say the reason is technology. There are so many advances in technology and mechanization that a "robot" can now do the work of 3 employees. Is that a bad thing? I don't pretend to know. But what I do know is that we need to shift our focus on how to educate our youth. We need classes that keep the youth engaged in the latest technological advances; classes that teach them not just how to operate them from a user standpoint, but how to build them, maintain them, and design them. This is the future if you hope to be gainfully employed. Will there still be manual labor jobs and jobs that require little or no specialized education? Of course there will. But there won't be many. And the higher pay (i.e. wages that can actually support a family) will be in technology. It is pointless complaining about the fact that we are in a Technological cyclone which continues to gather momentum as it sweeps through society. We need to be proactive and make sure that our youth will still continue to be the most competitive on the planet when it comes to innovation in the technological arena. I'm not judging anyone for their choices in life, but no longer will an education in "Bowling Industry Management" get you very far. And before you think I'm making that one up, it really is a major offered at Vincennes University in Evansville, IN. We need to be finding new and better ways to engage children in science and mathematics (the core qualifications for technology). Yes English is important. Yes a well-rounded education is useful. But by the time college comes around, it's time to specialize or we're going to be left behind by countries like China and Singapore who steal our technology now but will soon outsmart us by learning how to do what we do, only better, and cheaper. We cannot continue to placate those who insist that basket weaving is good for the soul. That may be true, but the soul is going to be awfully sad when it's jobless, homeless and starving. And by the way, China & Singapore's work weeks? 41.24 & 43.98 respectively. I recently took my mom to see Neil De Grasse Tyson, astrophysicist/cosmologist who illustrated how the US produced 3x the amount of scientific papers than the next leading country (Japan) through 2001, but now is being dwarfed by Asia as a whole (Japan, Korea, Singapore, China). We cannot afford to be at the mercy of Asia as they write the book on how the world will turn. I know for sure I will be encouraging my grand kids to bulk up on science & math classes. Because our future really does depend upon it. Class dismissed. Happy Labor Day!....Tara Miller
